Dear Mr Davies

I would like to thank you for the help you were able to offer me recently by providing a bed to a patient of mine who was living in intolerable conditions and had resorted to sleeping on the floor for at least three weeks. Thanks to the help of your team within hours of my call she had been provided with a bed which helped her situation immensely.

Your teams actions were extremely efficient and kind and hopefully by having your poster advertisement in our waiting room you have increased public awareness locally, and it was the least that we could do after your help when we needed it most.

Yours sincerely,

Dr Monica Chidgey
